

Trait:

SmartStax® RIB
Complete®
Corn

CHU: 3050 **RM:** 102

Product Features:

- Blocky ears with extra kernels
- Superior leaf disease tolerance
- Enhanced stay green allows flexible harvest
- Adapted north and south of zone

Agronomy Notes:

MZ 4623SMX is a hybrid with medium plant and ear height. It flowers late for its maturity but grain dries quickly. Husk cover is long and opens well at harvest. Agronomics are solid. Ears are large (18 rows) with deep heavy kernels. Position north and south of maturity zone. Optimal yield at moderate populations (33-36K).

Disease Ratings

Disease ratings are based on the severity of infection (9 = Excellent
1= Poor)

NCLB:	8	<div style="width: 80%; height: 15px; background-color: #0070C0; margin: 0 auto;"></div>
Anthracoze:	7	<div style="width: 70%; height: 15px; background-color: #0070C0; margin: 0 auto;"></div>
Goss's Wilt:	8	<div style="width: 80%; height: 15px; background-color: #0070C0; margin: 0 auto;"></div>

Product Characteristics

Emergence:	Very Good
Early Vigour:	8
Final Population:	32-36
Flowering:	Late
Plant Health:	9
Plant Height:	Medium
Starch Amount:	9
Starch Availability:	8
Plant Disease Rating:	9

Ear Characteristics

Ear Type:	Semi-Determinate
Kernel Rows:	18-20
Kernel Texture:	Hard
Cob Colour:	Pink

Performance Data: 1 = Very Poor, 9 = Excellent

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Trecepta® RIB Complete® Corn has been approved for import into Australia/New Zealand, Colombia, China, Japan, South Korea, Mexico, Taiwan, United States and all individual biotech traits approved for import into the European Union. Please check biotradestatus.com for trait approvals in other geographies. Any other Monsanto commercial biotech products mentioned here have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products.
