

**Trait:**
**VT Double PRO<sup>®</sup>**  
RIB COMPLETE

 VT Double  
 PRO<sup>®</sup> RIB  
 Complete<sup>®</sup>  
 Corn

**CHU:** 2300      **RM:** 77

**Product Features:**

- Industry leading silage performance
- High starch content
- Outstanding agronomics
- Early flowering allows movement north

**Agromony Notes:**

E52V92 R combines early maturity with elevated grain quality. Seedlings are dark in colour with upright, narrow leaves. Plants are moderate to tall in height with a low ear height. Plants flower early for maturity. Ears are moderate in size with 14-16 kernel rows. Husks open well in the fall. Grain quality is excellent. Position in and north of zone for optimum yield. Early harvest is recommended south of zone.

**Disease Ratings**

 Disease ratings are based on the severity of infection (9 = Excellent  
 1= Poor)

<b>NCLB:</b>	<b>8</b>
<b>Anthracoze:</b>	<b>6</b>

**Product Characteristics**

Early Vigour:	8
Final Population:	33-36
Plant Health:	8
Plant Height:	Tall
Starch Amount:	9
Starch Availability:	8
Plant Disease Rating:	9

**Ear Characteristics**

Kernel Rows:	14-16
Kernel Texture:	Medium

Performance Data: 1 = Very Poor, 9 = Excellent

Monsanto Company is a member of Excellence Through Stewardship<sup>®</sup> (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Trecepta<sup>®</sup> RIB Complete<sup>®</sup> Corn has been approved for import into Australia/New Zealand, Colombia, China, Japan, South Korea, Mexico, Taiwan, United States and all individual biotech traits approved for import into the European Union. Please check biotradestatus.com for trait approvals in other geographies. Any other Monsanto commercial biotech products mentioned here have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products.
