

# Pikas R2X

## Trait:

Roundup Ready  
2 Xtend®  
Soybeans

**CHU:** 2300      **RM:** 00.1

## Product Features:

- Strong IDC tolerance
- Excellent disease package
- Great yield performance

## Agronomy Notes:

Pikas R2X is a strong performing variety with a solid agronomic package. Plants have average spring vigour. A SCN and PRR gene provide good protection in season and also has strong IDC tolerance. Plants fill the row well and have a tall plant stature to provide lots of growth in this early zone.

## Product Characteristics

Plant Type:	Semi-Bush
Pubescence:	Tawny
Flower Colour:	Purple
Pod Colour:	Brown
Plant Height:	Tall
Seed Size (s/kg):	6400

## Agronomic Ratings

White Mould Tolerance:	Above Average
Lodging Resistance:	8
SCN Resistance:	PI88788
Seedling Vigour:	8

Performance Data: 1 = Very Poor, 9 = Excellent

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. These products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products.
