

# Badger R2X

## Trait:

Roundup Ready  
2 Xtend®  
Soybeans

**CHU:** 2425      **RM:** 00.6

## Product Features:

- Strong yield performance
- Excellent IDC tolerance
- Tall variety for maturity

## Agronomy Notes:

Badger R2X is a strong performing variety with admirable agronomics. Plants have good early season vigour and aggressive vegetative growth. Strong PRR field tolerance coupled with a Rps 1k gene provide great in season protection. IDC tolerance is strong and this variety finishes off the season well with great yield potential.

## Product Characteristics

Plant Type:	Semi-Bush
Pubescence:	Tawny
Flower Colour:	Purple
Pod Colour:	Brown
Plant Height:	Medium-Tall
Seed Size (s/kg):	5400

## Agronomic Ratings

Phytophthora Tol:	Excellent (Rps1k)
White Mould Tolerance:	Average
Lodging Resistance:	9
SCN Resistance:	Susceptible
Seedling Vigour:	8

Performance Data: 1 = Very Poor, 9 = Excellent

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. These products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from these products can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for these products.
